Hi all, hi Alicia,

I have calculated 1 million Events  
of pbar-C12 interactions at 3 GeV/c momentum using Urqmd\_SMM  
generator.

The calculations are disposed at lxi00X.gsi.de cluster  
in directory /d/panda02/urqmd\_smm/pbarC\_3GeV  
in 10 files: pbarC\_1.root, pbarC\_2.root ... pbarC\_10.root .  
Each file contains 100000 Events of pbar-C Events.

Good luck,  
Aida
