hi!

is the charmonium tutorial on the website still supposed to work? i can't get it to run. 'make bin' doesn't work, i can load all libraries but hte links don't work (error message: "/usr/bin/ld can't find -lpythia" etc.)

cheers,  
Kati

Hi Kati, this means that your /cern/lib (or wherever your cern library is) is a.) not installed or b.) not in your LD\_LIBRARY\_PATH. Can you check? (but actually this should actually already break when you run the ". configure" without the pythia library ...) cheers, Soeren

Hi Soeren!

Thanks once again for your help. Ok, I built cernlib again and managed to get that part of make bin to run. However I still get a ton of undefined references when trying 'make bin'...!?

Cheers, Kati

Hi Kati, can you just cut and paste your errors messages here (or send by email) so that we can see which libraries exactly are not found? cheers, Soeren
