Hi MVD developers,
we are testing the Genfit for MVD+STT, using the macro tutorials/lhetrack/run_kalman_stt.C.
Since we don't see the expected improvements, we are wondering if your tests on Genfit with
MVD alone were successful. If so, can you please help us to reproduce your results?

Thank you in advance.

Ciao,

Susanna & Lia

Hi Susanna and Lia,

I am sorry, but I have not tested Genfit with the MVD up to now. But maybe Ralf has done
something.

Sorry,

Tobias
