Dear Mohhamad,

please, include in the file

/trunk/gconfig/rootlogon.C

"libRpc" and "libLumi" and commit.

I have not permission to do this.

One remark, file "pndcave1.geo" calling in the
/trunk/macro/runLumiSim.C is not presented.
It would be better, to replace "pndcave1.geo"
by "pndcave.geo".
