Hi,

I removed debug output from FairGeanePro and GeaneTrackRep. This was very disturbing when using the Kalman filter.

BUT: If any of you doesnt like this change, please tell me and I will revert it. I hope I am not stepping on any toes here. Since we know now that Geane works reliably, I thought we wouldnt need it anymore, and it makes the stdout much more usable.

Cheers, Christian

If this is what I think (I have not updated the code yet),

THANKS!!!

It was a pain in the...neck!
