Dear all,

Although still a few weeks to go for the Juelich meeting, I would like to ask already now for contributions for the computing session which will be held on Monday the 7th of September in the afternoon starting at 14:00 hours. So please, inform me if you would like to give a contribution by giving me a preliminary title and time-slot needed.

Kind wishes,

Johan.

Dear all,

The preliminary agenda of the computing session on Monday the 7th of September is out and can be found on the indico system, namely

<https://indico.gsi.de/conferenceDisplay.py?confId=665>

I hope I didnt forget anyone. For the speakers, I would urge you could give me your talks in pdf format beforehand (not later than Sunday evening), so that I can upload them on the indico site.

Kind wishes and see you all in Juelich,

Johan.
