Hi,

there was one proposal for the name of our PWA software so far, namely

PAWIAN = PARTial Wave Interactive ANalysis software

Another idea which came into my mind is:

SPINOR = Spin Parity INvestigatOR

Any other suggestions?

Cheers,
Bertram.

SPEAR: SpinParityExcitationAnalysisofResonances

oder SpinParityExcitationAnalysatoR

SPIRAL: SpinParityInteractiveResonanceAnaLysis

CHEERS! Sebastian.

Dear all,
6 suggestions for name of the PANDA PWA software have been made so far (thanks to

Sebastian and Klaus!).

At today's meeting we decided to start a poll here in this forum by end of this week. This would still give everyone the opportunity to come forward with further proposals. Are there more ideas?

Best regards,
Bertram.
