Subject: Name for the PANDA PWA Software Posted by Bertram Kopf on Thu, 06 May 2010 12:55:54 GMT View Forum Message <> Reply to Message

Hi,

there was one proposal for the name of our PWA software so far, namely

PAWIAN = PArtial Wave Interactive ANalysis software

Another idea which came into my mind is:

SPINOR = Spin Parity INvestigatOR

Any other suggestions?

Cheers, Bertram.

Dear all,

6 suggestions for name of the PANDA PWA software have been made so far (thanks to

Sebastian and Klaus!).

At today's meeting we decided to start a poll here in this forum by end of this week. This would still give everyone the opportunity to come forward with further proposals. Are there more ideas?

Best regards, Bertram.
