Hi,

I put under our [](http://panda-wiki.gsi.de/cgi-bin/view/Techboard/PandaRadMap) a short status report concerning a radiation map for Panda. Comments are appreciated (some problems I posted already recently in the forum).

Technically, I modified a the RadiationLengthManager written by Mohammad some time ago. The modifications are not on svn, next year I should organize the things a bit and provide a package.

Season's Greetings

Olaf.

PS: Unfortunately I cannot take part in tomorrow's PandaRoot meeting.
