Dear all,

many times I saw presentations with nice pictures from event display. I mean colorfull PANDA spectrometer with tracks and transparency effects.

I would be really happy to learn how to do it. Does anybody have a macro where I can set all parameters?

Best regards,
Dmitry

Hi Dmitry, maybe you can take a look into this link.
It gives an overview about what to do with Eve functionalities.

<http://root.cern.ch/root/html/tutorials/eve/index.html>

i hope it helps,

cheers
Alicia S.
