Any one from computing interested to go to 2011 IEEE conference?

If so, let us know (see email from Daniela below)

Dear All,

I would like to draw your attention to the 2011 IEEE Conference.

<http://www.nss-mic.org/2011/NSSMain.asp>

I suggest to people involved in detector developments and software and computing for panda
(and other topics you can see on the web page of the conference)
to send abstracts.

Deadline: 10 May.

Best regards

Daniela Calvo
