[View Forum Message](#) <> [Reply to Message](#)

Hi,

I put a new version of

PndSttMvdTracking.cxx and .h

because I discovered some bugs (some subtle, other due to my blindness) that unfortunately lower the efficiency of the Pattern Recognition.

This bugs were in the new 'cleanup' section of the code.

I know it is quite late but, if possible, please the analysers update the code and rerun (you're gonna say : yes, right !)

Gianluigi

Hi Gianluigi,

There is still a crash which I have with the latest version of STT reconstruction code.

PROBLEM HAS NO FEASIBLE SOLUTION

PROBLEM HAS NO FEASIBLE SOLUTION

*** Break *** segmentation violation

=====

There was a crash.

This is the entire stack trace of all threads:

hi Dima,
try the new version of PndMvdTracking.hxx and .h

I am not sure that solves your bug, but certainly I fixed a memory problem.

Please let me know

Gianluigi
