Hi,

since a few days i always get the error:

info WARNING!!! SOAP ERROR, while contacting the PackMan
info Can't get the list of packages!!!

when i do "alien login". This also happens when i try to add some jobs.

Is there some way to avoid this?

Best regards and thanks a lot

Andreas

Dear Andreas,

can you please try updating your alien to version 2.20-36 at least?

yours
radek
