Hi,

we will have a maintenance shutdown of our CDash server today at 10 AM for roughly 30 minutes.

At this time you will not be able to access the webpage and to send new results.

Ciao

Florian

Hi,

sorry for the slightly longer delay. We finished the update of the webpage to the newest version of CDash.

Even if we don't expect any problems, please report the problems in the forum if you encounter any.

Ciao

Florian
