dear collaborators,
on next Friday, May 24, at 14:45, there will be a SeeVogh meeting
dedicated to the Pattern Recognition issues.
The discussion will be focused on the status of the various codes being developed so far,
including the work done with the Cellular Automaton for Panda, and the way to set a common
task useful to check the performances of the different methods.

The title of the meeting on SeeVogh is :

Pattern Recognition meeting

cheers

Gianluigi

   Recognition applied to Panda (15 min);

2- Yutie Liang : status of the code for Online Pattern Recognition
   for FPGA's (15 min);

3- Gianluigi Boca : status of the Offline Pattern Recognition with
   semi-traditionl methods (20 min);
