Subject: Documentation for Rho classes

Hi all,

as promised since quite some time I started creating a documentation of the most important
Rho and analysis classes.

http://panda-wiki.gsi.de/cgi-bin/view/Computing/PandaRootAnalysisJuly13

In contrast to the tutorial, it's supposed to be a quick lookup wiki page for interface and usage.

Please take a look and let me know what you think is missing.

Best regards,
Klaus
