Dear Geant4 users,

Geant4.7.0 has been installed at GSI.

For gcc295-04 at

/u/gsisim/simulation/geant4.7.0

for gcc323-00 at

/usr/local/pub/debian3.0/gcc323-00/sim/geant4.7.0

initialisation is done according to \$GSI_COMPILER_CC

with

". gsisimlogin dev"

The installed versions are now as follows:

```
echo " dev : geant4.7.0 debug"
```

```
echo " new : geant4.6.2 debug"
```

```
echo " prod : geant4.6.1 debug"
```

```
echo " old : geant4.6.0 debug"
```

```
echo " older versions by version tag, "
```

```
echo " e.g. g4.5.1: geant4.5.1"
```

Cheers,

Kilian
