Let me remind the next SeeVogh meeting on Tuesday 17th May at 10:00 AM CET.
Planned agenda:

- a) General Items
 - > Next collaboration meeting
 - > New pub folder
- b) Open bugs&forum problems&activities
 - > Report on ongoing activities
 - > (A.Sanchez) issues observed during the simulation of the stopping processes of unstable strange heavy particles
- c) A.o.B.

I would ask to all the people doing software activities to report briefly on what they are currently doing. Please join the meeting!

There is also time for other topics or contributions, in case let us know.
