Hello,

I have strange error appeared today:

Processing r3bsim.C...

RandomEngineRoot:

Generator type: TRandom3

Seed: 3984777767

SimpleAtomPhotoAbsCS::SimpleAtomPhotoAbsCS(int fZ, const String& fname, , const String& fthreshold\_file\_name, const String& fsimple\_table\_file\_name, double fminimal\_threshold):

ERROR:

cannot open file /shelllist.dat

FunNameStack: s\_init=1 qname=1

0 SimpleAtomPhotoAbsCS::SimpleAtomPhotoAbsCS(int fZ, const String& fname, , const String& fthreshold\_file\_name, const String& fsimple\_table\_file\_name, double fminimal\_threshold)

File is /u/land/htt/garfield/Heed/heed++/code/PhotoAbsCS.cpp , line number is 1580

spexit\_action: the streams will be now flushed

spexit\_action: the abort function is called

Some files are not found?

Oleg.

GARFIELD\_HOME and HEED\_DATABASE environment variables were not set.

Will add it to the main config.sh

Best regards,  
Dima

There is technical problem of putting GARFIELD\_HOME into config.sh. This script is generated using cmake macros of FairRoot. And I do not want to introduce Garfield dependency on a general level. Since application of this software part is limited and you have a central garfield++ installation, it is much better to add these 2 environment variables to your \$HOME/.bash\_profile

Best regards,  
Dima
