Dear PandaRooters,

we will have our next Computing EVO on Monday, 8th of January at 14:00.

The topics are:

- Open bugs and forum issues
- Planning for 2018 (be prepared to say a few words what you want to do in 2018)
- Git experience
- Constant integration in git
- A.O.B

See you all on Moday,

Tobias

Unfortunately, I won't be able to attend today since we have a couple of project presentations today and tomorrow. I'll try to be at the next meeting though and say a few words about our plans.

Cheers,
Michael

Only Ralf and me were present. Therefore we did not have a real meeting but just discussed a few things.

I will tray again with our regular meeting in two weeks at the 22.1.2018.

See you all then,

Tobias
