Subject: NYX phases out
Posted by Tobias Stockmanns on Mon, 01 Jul 2019 13:07:36 GMT

Dear Developers and Analysts,

The "nyx" filesystem at GSI is phasing out and all our data will be transferred to the already running "hebe" file system. In order to ensure a smooth operation there will be a 2-day downtime, starting Monday July 8th.
Please assure that all your jobs on the cluster have finished by then, since they would not be able to read or write.

Cheers!
 Ralf
