[INFO] Branch: StsDigi not found in Tree.
root.exe: /home/towseef/CBMSoft/CBMsource/run/CbmBuildEventsSimple.cxx:193: virtual
InitStatus CbmBuildEventsSimple::Init(): Assertion `fStsDigis' failed.

in comments of this micro it is said that,   Run the macro run_digi_tb.C before to generate the
input file .raw.root.

But this macro run_digi_tb.C is not there, moreover the file .raw.root is already generated.
