Hi all,

I have found a small bug in the base:

In file base/CbmRootManager.h:50:

```
TFile*      GetOutFile(){return fInFile;}
```

shall be

```
TFile*      GetOutFile(){return fOutFile;}
```

Kind Regards, Ralf

Hi Ralf

Thanks for the hint. I corrected the problem.

I think this was no real problem because
the function is nowhere used.

Ciao

Florian
