Hello Everybody!

I would like to ask you, who take care of different detectors, to add few includes, which are necessary for instalation of pandaroot software on Mac Os X. Below, these includes and file names where should be added, are listed.

For EMC detector I already added required incls and sent to svn (rev. 2207 & 2208).

1. #include <cmath>

.../pandaroot/geobase/CbmGeoNode.cxx

.../pandaroot/stt/PndSttTrackFinderIdeal.cxx

.../pandaroot/tpc/tpcreco/PndTpcConfTrackFinder.cxx

.../pandaroot/tpc/tpcreco/test/PndTpcRecoTester.cxx

.../pandaroot/tpc/tpcreco/PndTpcRiemannTrack.cxx

.../pandaroot/mvd/MvdDigi/PndMvdCalcPixel.cxx

.../pandaroot/mvd/MvdReco/PndMvdStripClusterTask.cxx

.../pandaroot/genfit/Nystrom.cxx

.../pandaroot/recotasks/KalmanTask.cxx

.../pandaroot/recotasks/TrackFitStatTask.cxx

.../pandaroot/dch/PndDchDetector.cxx

.../pandaroot/dch/PndDchSimpleFitter.cxx

.../pandaroot/dch/PndDchPreFitter.cxx

.../pandaroot/lhetrack/PndTpcLheTrackFitter.cxx

.../pandaroot/trackbase/CbmTrackParP.cxx

.../pandaroot/trackbase/CbmTrackParH.cxx

.../pandaroot/geane/CbmGeanePro.cxx

2. #include TGeoVoxelFinder.h

 #include TGeoMatrix.h

.../pandaroot/dch/PndDchDetector.cxx

Thank you very much.

Best regards,
Ola.

Hi Ola,

maybe you could give a patch file to the developers which you can generate with svn. I think that is much easier for them to apply, then to edit every file.

Johan
