Dear all,

there will be a PandaRoot EVO Meeting WED Mar 19

14:00-16:00

Audio testing from 13:30.

(it is not completely clear if there is a MVD meeting at the same time,
but let's try ...)

Agenda items:

- o first global tracks (TPC+MVD) with lhetrack (Soeren)
- o Geane crashes (all)
- o any updates on tracking related items
 - DCH? (Arkadiusz)
 - Riemann? (Tobias, Sebastian)
 - in particular: Covariance Matrix (revisited)
- o Cerenkov, a few questions for DSK (Peter Koch)
(e.g. how to get the exact time of the primary
in the particular moment when a Cerenkov photon is generated?)
- o new external packages
