dear all,
i have a question concerning the units dimension
of top and botton pith for the strips in the MVD.

In the digitization macro, for strips
it appears a value of circa 0.0049 for the top and bot pitch
my question(maybe stupid) is the following.
Are the units cm or mm, ?
i think is cm, isn't?

best regards
Alicia.

Hi Alicia,

You are right the units are in cm.
And thanks for showing me that there is still something wrong in the macros.
I will look after this.

Ciao,
Ralf.
