Dear PANDA PID-TOF group,

this email is to bring the upcoming PANDA meeting to your attention. We will have a subgroup meeting which is scheduled for Tuesday, 3rd of March, 14:00 pm to 16:00 am in the KP3 seminar room (SB3 4.161)

Please let me know about your contribution and the time needed for it at your earliest convenience, so that I can construct and post the agenda soon.

From the participant list I conclude that we will have an virtual EVO meeting.

If you would like to discuss other topics, or have also other people (eg. TC) around, let me know.

A possible topic could be: weight of subsystem, radiation length including all infrasturcture (eg. cables)

Best regards
Carsten
