Hi,

I know it isnt really a discussion topic, but since this forum is like a replacement for having an email list...

Can somebody please give me write access to the geane directory. Sebastian started fixing some stuff in there and I need to put more work into it. It would be nice if this could still happen today, since more people in Munich work on this issue right now and it is hard to stay synchronized.

Thanks a bunch!

Christian

Mohammad, Florian, or Radek,

Could one of you take care of setting the write permissions for Christian on the Geane part of the panda repository (in case it hasn't been done already)?

Thanks in advance,

Johan

Hi,

Ok it is done!

I am in vacation for this week! so I am not really reading and responding to all mails every day!

Mohammad

Hi Mohammad,

thanks for doing this in your vacation. Enjoy the rest of it.

Christian
