Hello Everybody,

I set up an EVO meeting next Wednesday, June 3rd, at 10 am.

Topics for the discussion follow the discussion from here.

I'll post some issues which need to be discussed/decided properly.

Functionality in data classes: Yes or No?
(Until now it was avoided, but the usability was pointed out.)
PndTrack: How do we proceed here? Copy from genfit/Track?
Track Propagation: What is still needed to be done?
Who? Well that is a particular question, are there volunteers?

I call especially for the people who have much experience with tracking, like the Pavia group, the Munich group, Bochum group and Gsi. I really want to have noone missing, because that will delay us even more.

Kind regards, Ralf.

PS: Please feel free to continue further on the forum discussion.

Hallo Ralf,

on the 3rd of June, 10:30 we have a vmc meeting, and I think the Pavia group is also participating in this meeting, I asked Lia to give a talk there about the changes she has done in G3 so that we can discuss with the CERN people about it and about other problems! So is it possible to change the time of your meeting or even the day?

Mohammad

Quote: on the 3rd of June, 10:30 we have a vmc meeting, and I think the Pavia group is also participating in this meeting
Yes, I would ask too if we can change the day or at least the time please...

Thanks,
Lia.

Dear Ralph,

since Lia is not available the June 3, we could shift Thursday the 4th. We both are free in the afternoon. I'm in a Congress, so I could have some difficulty.
Moreover, we have no problems the week after.

Best regards
Alberto

Well,

How do other people think of Thursday, June 4th, at 10 am?

I'd like to get this discussion through quickly, since we want to have a full simulation chain for the Collaboration meeting. That's why we shall meet as early as possible.

Greetings, Ralf.

Hi,
on thursday I have lecture up to 13:00, therefore I cannot participate.

Hi,
I have a COMPASS telco on Thursday 11-13, but after that I am free. And the Pavia group also suggested the afternoon just like Stefano.

Cheers, Christian

Ok,
I moved the meeting to June 4th, 15:00. Hopefully there is no other timetable interference.
Best regards, Ralf.

Hi Ralf,

I will join somewhat later, since my lecture ends around 15:00 hours after which I still have to bike to KVI (~10 minutes).

Kind wishes,

Johan

Dear Ralf, i will be not able
to attend tomorrow the meeting
at the time you plane to start with,
i will try it later
kind regards

ALicia.
