Subject: New interactive servers for CBM available
Posted by Walter F.J. Müller   on Fri, 02 Jul 2004 14:59:29 GMT

There are now 3 new interactive servers available for CBM:
lxial32
lxial33
lxial34
Feel free to use them for any interactive work related to CBM. The node names of these interactive servers are temporary, they will be renamed when the rest of the CBM computing infrastructure is in place.

Unfortunately, there is a delay with the file server ordered for CBM. Most likely it will be available in about a week from now.
