Dear all,

Holger Brand informed us today that he succeeded in overcoming the last obstacle, and now LabVIEW - EPICS connectivity has been tested and is working.

The Target group could now contact Holger for help and documentation on how to convert a LabVIEW application into an EPICS IOC.

The related (updated) talk can be found here:
http://panda-wiki.gsi.de/pub/DCS/TalksArchive/PANDADecember2009.ppt

Again, lots of thanks to Holger for solving this.

Best regards,
Dan
