Subject: TRAC ticketing system
Posted by Florian Uhlig on Tue, 16 Nov 2010 06:24:39 GMT

Hi

Due to misuse of our ticketing system I had to change the permissions to create new tickets. From now on only registered users are able to create new tickets.To do so you have to log in with your SVN account name and the corresponding password.

If you need the anonymous creation of tickets please reply to this post.

Ciao

Florian
