Are there any news about the production of the new external packages release for the tracking TDR?
Was the GLPK (or how this is called) fixed in the code?
Let me remind that we should start as soon as possible by installing it in the GRID nodes.

Regards

I sent the modified file (glpapi19.c) to Mohammad a few days ago, he will put this in the GLPK (Gnu Linear Programming Kit) ASAP.

Gianluigi

Hi,

The "may11" is now available. see fairroot.gsi.de for more details.

regards

Mohammad
