Dear all,

In view of the tracking studies for the TDR, we have started a data production on the Grid. So far, we have generated background events, but also started - as test - to run signal events (without mixing). Feel free to take a look at the data or to request a specific channel which you would like to have statistics for. All the information (logs, runsheets, encountered problems, etc.) can be found on

http://panda-wiki.gsi.de/cgi-bin/view/Computing/TDR11

Greets,

Johan.
