Hi Gridka experts,

The problem of "ERROR_SV" might be related disk quota or rejection of my disk access. I coudln't add any scripts on my account.
Please check /panda/user/d/dkang/

Quote:
dkang-laptop> add run_his_gridka2_stt.C /tmp/run_his_gridka2_stt.C
Aug 20 21:38:22 info The pfn '/tmp/run_his_gridka2_stt.C' does not look like a pfn... let's hope that it refers to 'file://dkang-lapto/tmp/run_his_gridka2_stt.C'

Aug 20 21:38:27 info Unknown command: more
Aug 20 21:38:27 info Access [envelope] creation failed: Uploading file for user (dkang) is denied - number of files quota exceeded.
Aug 20 21:38:27 info We couldn't get envelopes for the specified '2' SEs with qos flag 'disk'.
Aug 20 21:38:27 info ERROR: Adding the file was not successful because of access exception, check above!
Aug 20 21:38:27 info Error, we couldn't add/store the file on any SE!

Best wishes,
Donghee
