Dear friends

I have study X(3872) state using pandaroot. Today I have updated trunk but now I have get error in all macros (also in tutorial) as below

```
////////////////////////////////////
```

```
inux-1dkg:/home/pandaroot/fairroot/trunk/tutorials/charmonium/test # root run_sim_tpccombi.C
```

```
*****
```

```
*                                     *  
*   W E L C O M E to R O O T   *  
*                                     *  
* Version 5.29/02 21 April 2011 *  
*                                     *

Hi,

the problem is fixed in rev 13402.

Cheers,

Tobias

Hi Tobias,

I have still some problems with sds but in the compilation:

```
[ 54%] Generating SdsDict.cxx, SdsDict.h
Error: cannot open file "Math/Interpolator.h"
/home/spataro/trunk/pandaroot/sds/SdsFEModel/PndSdsFE.h:20:
Error: cannot open file "Math/InterpolationTypes.h"
/home/spataro/trunk/pandaroot/sds/SdsFEModel/PndSdsFE.h:21:
Error: Symbol Interpolator is not defined in current scope
/home/spataro/trunk/pandaroot/sds/SdsFEModel/PndSdsFE.h:74:
Error: Symbol inter is not defined in current scope
/home/spataro/trunk/pandaroot/sds/SdsFEModel/PndSdsFE.h:74:
Error: cannot open file "Math/Interpolator.h"
/home/spataro/trunk/pandaroot/sds/SdsFEModel/PndSdsFESimple.h:20:
Error: cannot open file "Math/InterpolationTypes.h"
/home/spataro/trunk/pandaroot/sds/SdsFEModel/PndSdsFESimple.h:21:
Warning: Error occurred during reading source files
Warning: Error occurred during dictionary source generation
!!!Removing /home/spataro/trunk/build/sds/SdsDict.cxx
/home/spataro/trunk/build/sds/SdsDict.h !!!

make[2]: *** [sds/SdsDict.cxx] Errore 1
make[1]: *** [sds/CMakeFiles/Sds.dir/all] Errore 2
make: *** [all] Errore 2
```

Maybe problems with root 5.30? (I am using trunk external packages, with my ubuntu 11.4

may11 does not work properly).

Quote:Maybe problems with root 5.30?

Hi Stefano,

I'm using root 5.30 too, and do not have these problems. Maybe root itself is not working properly.

Greetings,
/M

Hi Stefano,

there was a problem with the ROOT installation of the trunk external packages. Due to a typo in the installation scripts the gsl package wasn't found and as result the math library wasn't build.

The problem is fixed now. To get a working version please do a "svn update" in the base directory of the external packages, remove the root.exe binary and run "./configure.sh" again. This should solve the problem.

Ciao

Florian
