
Subject: Problems reading FairMCPoint branch
Posted by [Sverre Dørheim](#) on Fri, 11 May 2012 10:00:57 GMT
[View Forum Message](#) <> [Reply to Message](#)

Hello fellow Panda/Fair-rooters

After the changes in FairMCPoint in revision 15280 I get segmentation violation when drawing the members inherited from FairMCPoint with tree draw.

I have reproduced it with FopiROOT(using TpcPoint) and with PandaROOT using STTPoint and other MCpoints available running the tutorial macro from the feb12 as said on the wiki.
`root -b 'run_sim_sttcombi_evtgen.C(10, "psi(2S)", "psi2s_jpsi2pi.dec")'`

opening the output file and then this causes a crash:

```
tv__tree->Draw("STTPoint.fPy","", "", 10, 0);
```

This is true for all members which are inherited from FairMCPoint. When accessing these members through accessors like:

```
tv__tree->Draw("STTPoint.GetPy()", "", "", 10, 0);
```

All I get is zeros. For some other MCPoints like the MVDPPoint directly drawing the entries, does not crash, but the entries are always zero.

Looping over the same members with python:

```
Rfile = ROOT.TFile.Open("points_sttcombi.root", "read")
tree = Rfile.Get("cbmsim")
for e in tree :
    for point in e.STTPoint :
        hist.Fill(point.GetX())
hist.Draw()
```

Everything seems to work ie. non-zero entries and no crash

Anybody know what to do?

Best regards
Sverre

Subject: Re: Problems reading FairMCPoint branch
Posted by [StefanoSpataro](#) on Fri, 11 May 2012 11:09:18 GMT
[View Forum Message](#) <> [Reply to Message](#)

Hi,
I have the same problem. If you do not load the rootlogon at least you can plot the data members, but if you load it you have zeros.
Plotting the functions is crashing since ages, for me.

Subject: Re: Problems reading FairMCPoint branch
Posted by [Felix Boehmer](#) on Fri, 11 May 2012 12:32:54 GMT
[View Forum Message](#) <> [Reply to Message](#)

Hi,
Quote:Plotting the functions is crashing since ages, for me.
Please excuse me for asking the obvious: Does this mean that it will stay like that? Does someone have more insight into the source of the problem? Are there plans to actually fix this issue (considering that we are talking about one of the core classes of the framework...)

Cheers

Felix

[View Forum Message](#) <> [Reply to Message](#)

I was the only one complaining for this more than one year ago, then the problem seems to have very low priority.

I suppose nobody has ever investigated the problem.
