Hey guys, I'm having trouble running event display. I'm trying to use fairbase as is without any modifications, so I don't understand why it is not working. I have tried using both the sep12 and april13 external packages, but I have had no luck. This is the error message that I get:

```
root -l eventDisplay.C
```

```
root [0]
```

```
Processing eventDisplay.C...
```

```
FairRootManager::OpenOutFile("data/test.root")
```

```
[INFO ] The input consists out of the following trees and files:
```

```
[INFO ] - cbmsim
```

```
[INFO ] - data/test.mc.root
```

```
-l- name parset # FairBaseParSet
```

```
-l- RTDB entries in list# 1
```

```
[INFO ] Parameter and input file are available, Assure that basic info is there for the run!
```

```
[INFO ] The number of entries in chain is 10
```

```
[INFO ] Branch: EventHeader. not found in Tree
```

```
[INFO ] Branch: EventHeader. not found in Tree
```

```
[INFO ] No event Header was found!!!
```

```
[INFO ] Branch: EventHeader. not found in Tree
```

```
[INFO ] Branch: EventHeader. not found in Tree
```

```

Hallo Raphael,

are you using the trunk version of fairroot? Currently we are re-designing the parameter interface so not every thing is running as it should be, please use the tags and not the trunk.

svn co <https://subversion.gsi.de/fairroot/fairbase/tags/v-13.03a>

regards,

Mohammad

I was using the trunk version of fairroot. Thank you for the heads up.

Hi Raphael,

The tutorial3 with eventDiplay.C is now working.
Please update the fairbase trunk and recompile.

Thanks for reporting.

regards,
Denis

I have also found that event display does not show the proton track. Is that true for anyone else?

Hi Mohammad,
I am trying to switch over to the new tag 13.05
I tried svn co <https://subversion.gsi.de/fairroot/fairbase/tags/v-13.05>

but get the following error:

svn: E175002: The OPTIONS request returned invalid XML in the response: XML parse error at line 1: Extra content at the end of the document
(<https://subversion.gsi.de/trac/fairroot/fairbase/tags/v-13.05>)

Do you know what may possibly be the cause?

Best,
Raphael

Hallo Raphael,

We had some problems with the SVN server last week, I tried it today and it seems to work now. could you try again?

Mohammad
