Dear All,

I am having symbol lookup error when I am running tracking macro with PndMvdRiemannTrackFinderTask . I could not solve this problem with the previous posts of forum.
The terminal output goes like as:-

```
ajay@ajay-Vostro-1014:~/pandaroot/PANDA_DATA/3GeV$ root -l run_tracking_llbar.C
root [0]

/home/ajay/fairsoft/bin/root.exe: symbol lookup error:

/home/ajay/pandaroot/buildPanda/lib/libMvdTrk.so: undefined symbol:

__ZN27PndMvdGemRiemannTrackFinderC1Ev

Please have a look.

How to remove this error?

Can you please write which macro you are using?

Hi Stefano,

Sorry I forgot to attach the macro here.

I have taken the macros from /macro/mvd/TimeOrderedSim/
where PndMvdRiemannTrackFinderTask is implemented.

I did not take macro from default /macro/run folder.

Should I use only default macro with implementation of PndMvdRiemannTrackFinderTask
there?

Thanks

There are problems in the MvdTrk package.
I suppose Tobias will take a look.

Hi Tobias,

I was waiting for the solution of this error. I have checked again and still it is there.

Thanks

Do you really need to use the Riemann Task? There are still problems in MvdTrk.
The tracking tasks in macro/run are running, and there is no Riemann task there.

However, now it should work. Please update your mvd/MvdTrk folder.
