Dear all,
next week I will go and talk on behalf of the PANDA collaboration at Hirschegg. I attach here my talk (30').

Some simulations on D_s and D_sj mesons are shown in my slides (performed by Marius Mertens, Lu Cao, and me: I point the name of the authors of the plots to the corresponding slide).

I profit of this email to invite everybody to send his/her comments/suggestions, and to ask if it is possible to create a dedicated forum or web page (if it is not, yet) where to post approved slides/material/proceedings for conferences, so everybody inside PANDA can take a look which are the future conferences/workshops of interest for PANDA, and which is the approved presented material.

Best regards, Elisabetta
