Hi,

I have a trouble when I try to compile my scrut task code.
They do not find the class for PndPidCandidate.
I put below reco candidate into my code.
`PndPidCandidate *dpkar = (PndPidCandidate*)dpka->GetRecoCandidate();`

And get following message

Quote:
'PndPidCandidate' was not declared in this scope

Do I need a header for this in my scrut task?

Best wishes,
Donghee
