My Firefox tells me that the certificate of the FairRoot redmine is not trusted (see screen log attached). Can this be cured?

▼ Technische Details

fairroot-redmine.gsi.de verwendet ein ungültiges Sicherheitszertifikat.

Dem Zertifikat wird nicht vertraut, weil es vom Aussteller selbst signiert wurde.
Das Zertifikat gilt nur für chef-server-proxy.

(Fehlercode: sec_error_unknown_issuer)

Yes, if we get a valid certificate. I know that GSI can create certificates. If they are excepted by your browser I don't know. I can try to discuss this with our IT experts.

Ciao

Florian
