Hello,

I have error at compilation of PandaRoot.
I try to explain.

Martin Vala, our computer administrator
installed PandaRoot with external
packages at cluster HybriLit at JINR, Dubna.
Everything was O'k.

Today I have tried to install PandaRoot last version (28940)
in my home account at HybriLit.

All comands before make are working normal.

But, when I give

> make

I have following error connected with PndMasterRunAna.cxx:

[88%] Building CXX object PndTools/master/CMakeFiles/Master.dir/PndMasterRunAna.cxx.o
/nfs/hybrilit.jinr.ru/user/a/agaloyan/panda_Feb16/pandaroot/PndTools/mas

using std::cout;

```

this scope

```
    SetSource(fileSource);
        ^
```

```
/nfs/hybrilit.jinr.ru/user/a/agaloyan/panda_Feb16/pandaroot/PndTools/mas
```

```
/nfs/hybrilit.jinr.ru/user/a/agaloyan/panda_Feb16/pandaroot/PndTools/mas
```

scope

```
    cout << endl;
    ^
```

```
make[2]: *** [PndTools/master/CMakeFiles/Master.dir/PndMasterRunAna.cxx.o] Error 1
```

```
make[1]: *** [PndTools/master/CMakeFiles/Master.dir/all] Error 2
```

```
make: *** [all] Error 2
```

What is the reason of the error?

Can somebody help me to remove this error?

Thank you in advance.

best regards,

Aida

The first error has been fixed, most probably, in the last trunk.

For all the other errors... now you should use FairSoft mar15 and FairRoot v-15.11. I believe you are using an older version of FairRoot.

Hello Stefano,

after your e-mail, I updated pandaroot,
but I obtained at the compilation the same error (which I found before) in the file
PndMasterRunAna.cxx, connected with line:
> FairFileSource *fileSource = new FairFileSource(creator.GetSimFileName().data());

When I replaced this line into the line:

```
>FairFileSource *fileSource = new FairFileSource(new  
TString(creator.GetSimFileName().data()));
```

this error disappeared.

But after this, I have following error on the line

```
>SetSource(fileSource);
```

```
-----  
/nfs/hybrilit.jinr.ru/user/a/agaloyan/panda_Feb16/pandaroot/PndTools/mas  
ter/PndMasterRunAna.cxx: In member function 'Bool_t PndMasterRunAna::Setup()':  
/nfs/hybrilit.jinr.ru/user/a/agaloyan/panda_Feb16/pandaroot/PndTools/mas  
ter/PndMasterRunAna.cxx:57:23: error: 'SetSource' was not declared in this scope  
    SetSource(fileSource);  
      ^  
make[2]: *** [PndTools/master/CMakeFiles/Master.dir/PndMasterRunAna.cxx.o] Error 1  
make[1]: *** [PndTools/master/CMakeFiles/Master.dir/all] Error 2  
make: *** [all] Error 2  
-----
```

When I committed out the line

```
>SetSource(fileSource);
```

compilation of pandaroot is o'k.

I don't now,
>SetSource(fileSource);
is needed or not?

Best regards,
Aida

Can I know which operating system you are using, and which C++ compiler?
Which FairRoot version?

Hello again,

we are using
Scientific Linux 6.7
gcc 4.8.4

Hello again,

for installation of externals, in my account at HybriLit I give command:

```
module add hlit/fairroot/v15.07a_nov15
```

How I understand it is installed version of Fairroot - November15.

Best regards,
Aida

You are using FairRoot v15.07a, but you must use v15.11 (or v15.11a).

[https://panda-wiki.gsi.de/foswiki/bin/view/Computing/PandaRoot#Suggested
_version_of_the_code](https://panda-wiki.gsi.de/foswiki/bin/view/Computing/PandaRoot#Suggested_version_of_the_code)

O,k.

I will ask Martin Vala,
system administrator of HybriLit,
to install Fairroot version v15.11 (or v15.11a)
on HybriLit.

Best regards
Aida
