i started with run_transport.C, its run finished successfully and outfiles were generated, after this i tried runnung run_digi.C, which showed errors.
root release .. APRIL 2020

-I- FairRunTimeDB::InitContainer() FairGeoParSet
[ERROR] init() FairGeoParSet not initialized
Error in <FairRuntimeDb::initContainers()>: Error occured during initialization
root.exe: /home/towseef/CBMSoft/CBMsource/run/CbmDigitization.cxx:230: TString
CbmDigitization::GetGeoTag(Int_t, TGeoManager*): Assertion `geo' failed.

Dear Towseef,

this forum system is not used by cbmroot any longer. Our communication is though Redmine:
https://redmine.cbm.gsi.de/projects/cbmroot?jump=welcome

Use you GSI web loging there, and then post an issue.

To your problem: Please include the complete log, otherwise we cannot debug.

Best regards,

Volker
